

Automotive Technology

What's your favorite thing on wheels?

At Dania in Viborg we combine the teaching of modern advanced car technology with elements from marketing, sales, communication and management skills. You will therefore be well qualified for jobs such as:

- consultant/trouble-shooter in larger garages for cars, lorries and busses, and other vehicles, e.g. trains
- consultant/trouble-shooter in importers' technical departments
- consultant in after-sales and supply
- expert in fault detection on engines in industry and technical services
- teacher in the motor and vehicles field
- diagnosis technician

Job possibilities

A part from the technical skills the education at Dania in Viborg will also give you job possibilities in management such as floor manager or shop-/garage manager.

You will also be able to establish and manage your own company and navigate the challenges within the automotive sector.

- Diagnosis Technician
- Floor Manager
- Consultant
- Garage Manager

The road to a
brand new career

DANISH ACADEMY OF
BUSINESS AND TECHNOLOGY

Campus Viborg

– everything in one place

Internship

During the 1½ years you will complete 3 semesters and earn 120 ECTS Points. You will experience 3 months internship – in Denmark or abroad and get valuable practical insight. We offer a number of internships in the USA and other countries.

Everything in one place

Dania's campus in Viborg is a brand new campus in the middle of the city where all higher education in Viborg are gathered. On the Campus grounds you will find new dorms, international students' house, stadium, cinema, fitness centre, bowling, etc.

You will also find an international environment with international students from many different countries.

At Campus Viborg you will experience an open and friendly environment where your personal wellbeing is important to us.
